

Part general arrangement layout plan

Case study – Grant Funding

Project Type: Submission of proposal to Department of Education, Grant Funding. [Three projects allowed]

Project One. Creation of new teaching and Canteen Annex buildings.

Brief – As a secondary grant proposal the school sanctioned the development of a previous planning feasibility study carried out by Spacedesign which had identified redundant space and buildings that could provide school facility expansion space.

Scope – The zones selected were surveyed including the plotting of existing drainage and internal services into full sets of drawings, specifications, 3D visuals were compiled ready to be reviewed as tender documents with accurate budgetary costs and contract programmes. The schools external facility management team processed contractor identification, selection and interview. In parallel with contract preparations, Spacedesign successfully submitted planning application for the three new building structures.
